

Dear Gentlemen,

2/24/00

I have been acquainted with Hamid Dashti since 1987. He has always carried himself as a scholar and a teacher for those who sought wisdom and good health both physically and spiritually.

Whenever I was sick, I would come to him for herbs, teas and advice. He always helped me and never failed to give me good practical and holistic advice. He has helped me in my diet and skin care.

I had cancer when I was 40 years old. The doctors told me my reproductive organs were filled with cancer and that there was a tumor the size of a grapefruit in my pelvic area that could not be operated on and some cancer in my vagina. Hamid took me home and fed me cancer healing foods, liquids and herbs. I also got a hysterectomy and went through radiation treatment. The doctors said I needed chemo-therapy. I declined. The doctors said that radiation was only supposed to stop the growth of my pelvic tumor and offer some relief of the pain. With God's healing Grace and Hamid's regime of diet and herbs the tumors left in my body that couldn't be removed surgically, . . . shrank down to nothing. I am 48 years old now, and I have no evidence of cancer in my body.

One year after the cancer treatment, when I was 41 years old, I came down with liver dysfunction, they call it ascending colongitis, and hepatitis C. Five doctors told me I was going to die. They had no hope or effective means of treatment for me. All they did for 13 days in the hospital was give me antibiotics, through my IV and Benadryl to try to stop the itching I was experiencing. My bellirubin count (the toxin level in my body) was 32. Normally a person's bellirubin count is 1 or 2.5. The doctors said if mine had gone up to one on hundredth of a point more I would have been a vegetable, and completely brain damaged. Hamid took me home and started feeding me liquid chlorophyll by the gallons, chopped up garlic and more dietary supplements, herbs and food. I made a miraculous complete recovery. Although I will always have the Hep.C virus in my system, in seven years, I have had no more re occurrence of this problem.

Need I go on? OK, I will. Because of the radiation damage done to my intestinal system. Mainly the bladder area, I have experienced great pain and frequent uninary infections, bladder muscle loss, and bleeding. Once again, Hamid drew up a whole diet, herb regime and I have improved greatly. I no longer have to go to the bathroom every 10 minutes. I don't bleed as I urinate any more. My health and energy have improved with the herbs and protein shakes he recommended I drink every day.

I have recommended friends and relatives to Hamid. I believe if I follow his instructions on my personal health diet, I will be healthier and happier. I am confident that he is indeed, a healer.
